### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as obvious over Courson et al. in view of Moore (2,796,704).

Courson et al. meets all of the limitations of claim 1, as indicated above including that any suitably sander may be used, col. 4, line 17, except for disclosing an orbital sander. Moore teaches a sander driven by an eccentric (3) providing an orbital movement.

It would have been obvious to one of ordinary skill in the art, at the time the invention was made, to modify the invention of Courson et al. with an eccentric as taught by Moore to adapt the tool for orbital movement in markedly increasing the efficiency of the operation.

It is also noted that Courson et al. discloses that any suitably means may be used to connect the pad to the mounting member (42), col. 6, lines 5-8, in the alternative, it would have been obvious to one having ordinary skill in the art at the time the invention was made to use other means known in the art and commonly used in the art, e.g., mechanical fasteners to secure the pad to the mounting member, depending on the operational parameters, e.g., cost.

Regarding claim 2, Courson et al. in view of Moore meets the limitations, a plurality of ribs (34) and legs.

Regarding claim 3, Courson et al. in view of Moore meets the limitations, sanding disk (50) having corresponding holes not shown but inherent.

### ***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.
